## PROFILE

Results-driven professional with experience in operations support, customer service, and competitive environments. Skilled in cross-functional coordination, process optimization, and problem-solving. Currently advancing technical expertise in network engineering and web development to support business efficiency and innovation.

## WORK EXPERIENCE

### SportServe

2024 - PRESENT

#### OperationsSupport Specialist

I support daily operations and coordinate tasks across departments, assisting in project execution, reporting, and workflow improvements. My role involves resolving escalated issues, collaborating with various teams, and ensuring overall operational efficiency.

### Digitain

2024 - 2024

#### E-Sport Player

I was employed as an esports player at Digitain, specializing in the game FC 24 Volta. This role provided me with invaluable experience in teamwork, strategic thinking, and adaptability within a competitive environment.

### Menu.am

2022 - 2024

#### Customer Support Specialist

I have experience in customer service, including answering incoming calls, taking orders, and negotiating with partners. This has equipped me with the ability to work effectively under stressful situations, ensuring smooth operations and customer satisfaction.

## EDUCATION

### WEB Deployment

GITC - JS, Node JS, Postgress

2019 -2020

### Front-end Development

TeachMe - JS, React JS, Next JS, Tailwind CSS

2022 - 2023

### Network Engineering

CCNA 200 - 301 - Switching, Routing, and Wireless Essentials, Enterprise Networking, Security, and Automation

2024 - 2025
